Subject: Re: Meeting Schedule

Ok -- we'll meet on the 23rd and cancel the 17th.

And yes, our intention is to provide you with specifics about our anticipated decision. I expect we will stick fairly closely to the peer recommendations. We will be working during the next week to determine if there are any particular areas where we feel we may have to deviate from the recommendations. It would be helpful if GE would also identify for us which, if any, of those recommendations present particular concerns to you.

Subject: Meeting Schedule

The 23rd works fine for us. What we care most about is getting the specifics on what you guys are proposing -- the more specific and the sooner the better.
